DETAILED ACTION

Remarks

This Office action is responsive to applicant's amendment filed on August 30, 2007.

Claims 1-32 are pending.

Claim Objections

The objection to claims 9, 10, 13, 14, 25, 26, 29 and 30 has been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The rejection is maintained for the reasons of record. Applicant's arguments filed with the present amendment have been fully considered, however they are not found persuasive. The assertion that the term "freshly" equates to "recently", "just now", or "newly and in a fresh manner" does not negate the 112, second paragraph rejection, as these terms are nothing more than equally indefinite terms which fail to further limit or give concise meaning to the term "freshly" as used in the claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taskier (U.S. Pat. 4,298,666) in view of Buntin (U.S. Pat. 3,811,957).

Claims 1-32 are rejected under 35 U.S.C. 103(a) as being obvious over Wensley (U.S. Pat. 6,479,190 B1) in view of Taskier (U.S. Pat. 4,298,666).

These rejections are maintained for the reasons of record. The examiner notes that the pending claims are presented as originally filed. Applicant's arguments filed with the present amendment have been fully considered, however they are not found persuasive.

Applicant's argument is onefold: that the prior art does not teach a surfactant which is an oxirane polymer. This argument is not persuasive for the detailed reasons set forth of record, specifically, that Taskier teaches a surfactant such as ethoxylated 2-ethylhexyl phosphate. See col. 17 line 50 et seq., col. 21 lines 36-67 and col. 23 lines 1-34. See also the MSDS for this compound, which clearly sets forth that this compound is a "polymer with oxirane".

Double Patenting

Claims 1-32 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,479,190 B1 (hereinafter the '190 Patent) in view of Taskier (U.S. Pat. 4,298,666).

This rejection is maintained for the reasons of record. Applicant's argument against the obviousness-type double patenting rejection parallel that which is submitted for the prior art rejections. Accordingly, the foregoing reasons for maintaining the prior art rejections as applicable to the obviousness-type double patenting rejection is similarly maintained herein.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
